“An unparalleled meeting point for experts and patients that will provide a benefit to human health, well-being and knowledge”

What is it? The congress at a glance

A **pioneering** international congress with a focus on the integration of three major thematic areas of the study of the brain: **healthy**, **pathological**, and **artificial**.

A **multidisciplinary** encounter where **neuroscientists**, **patients**, and **technology developers** from all around the globe gather to share new scientific discoveries and generate synergies.

**International
Multi-Brain
Barcelona Congress**
Healthy | Pathological | Artificial
